Under the dynamic leadership of Hon'ble Prime Minister Shri Narendra Modi Ji, Indian is emerging as a global hub of exports. Various Government schemes in conjunction with 'Make in India' have ensured record growth in exports in the past few years.

In our endeavour to truly become 'Aatmanirbhar', organisations such as Jodhpur Handicraft Export Association (JHEA) will play an important role. Over the years, JHEA has successfully contributed towards the prosperity of local craftsmen and has played a pivotal role in facilitating trade in the 'Blue City' of India.

I take this opportunity to appreciate the persistence, discipline and ethics of members of the Association who have constantly provided support to the handicraft industry. I extend my best wishes to the Association, its members and all others associated with it.

Piyush Goyal
The great poet Rabindra Nath Tagore had once remarked after seeing the craftsmanship of Indian artisans, "the stones carved by the hands of Indian craftsmen sing the song of the soul and not the song of men". Indian handicrafts are the best ambassadors of the Indian skill and the Indian spirit, thus it gives me great pleasure to jot down this message for the Jodhpur Handicrafts Exporters' Association's Souvenir Report 2020.

Within a short span of three decades the Handicrafts Industry has achieved an export turnover exceeding Rs. 3000 crores a year. It is a testimony to the quality of stewardship, its progressive perception on design development and quality craftsmanship of its members and its associated fraternity.

I would also like to take the opportunity of congratulating the Association for its significant contribution to community development, relief work in times of drought in the region, disaster relief and its multidimensional interests over and above what can be defined as business self-interest.

I wish the Jodhpur Handicrafts Exporters' Association more and more successes in the years to come.

Jodhpur today is an international destination for export of wooden, iron, leather, handcrafted textiles and furniture.

All this was achieved over a journey of more than 30 years with efforts of a few pioneers and subsequently by many entrepreneurs and today the community stands at more than 1000 units of large and small scale units.

Many strategic landmarks like declaration of Jodhpur as a Handicrafts cluster, timely introduction of wood legality certification as per citres (vriksh certification) and the common facility centre for exporters also played as important role in the growth of exports from jodhpur.

Marketing opportunity for Small Furniture

Consumers today reinvent the look of their homes with high frequency. Like fashion, accessorising and accent are becoming the new buzz words in home décor too! Decorative small furniture is a new category which combines functionality with decor.

Coffee tables, consoles, nesting tables, small cabinets, dressers & mirrors, book shelves, bar cabinets, chairs, sofas, study tables, kids furniture, trolleys, shoe racks, stools, garden furniture, outdoor furniture…the list seems to be increasing year after year.

With people working from home in the post-pandemic era, demand for home office furniture is increasing. In addition to furniture stores – home stores, furnishing stores, home décor stores and online retailers are becoming new destinations for furniture buying.
